Washington, DC 20515

The Honorable Rosa L. DeLauro
Ranking Member
House Committee on Appropriations
H-218, The Capitol
Washington, DC 20515

Dear Chairwoman Granger and Ranking Member DeLauro:

I am requesting funding for a replacement water treatment plant in the Village of Greenwich, Ohio in FY 2024. The entity to receive funding for this project is the **Village of Greenwich, located at 45 Main Street, Greenwich, Ohio 44837.**

The funding would be used to replace the over 75-year-old water treatment plant to improve drinking water quality and increase capacity that is currently limited to only 250,000 gallons per day. The project would specifically replace the high service pump and ion exchange softeners, and improve the clear well and associated valving and controls. The project is an appropriate use of taxpayer funds because it will provide a reliable drinking water source for the Village of Greenwich to ensure the health and safety of its residents are maintained and the community can thrive.

The project has a Federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that neither I nor my immediate family has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by the House Appropriations Committee's policy that only posted requests will be considered.

Sincerely,

Robert E. Latta
Member of Congress
